Arma Check® - CL & GC

Arma-Chek CL

The insulation covering resistant to scratch & mechanical impact, with a bright silver finish.

- Easy to apply solution for all area where protection against mechanical impact and bright silver finish is needed
- Easy to clean / wash

Arma-Chek CL is specially designed for internal plant rooms, clean room environments and industrial complexes. This is aluminium foil finish with glass cloth reinforcement to provide good resistant to mechanical impact and scratch, while still remaining flexible.

- Easy to apply solution for all areas where protection against mechanical impact and a bright silver finish is needed
- Non-metallic cladding eliminates galvanic corrosion
- Easy to install - no special tools required
- Good resistance to oil, chemicals and damage
- No fibre / dust migration
- Safe: No health hazards during installation.

Arma-Chek GC

The Lightweight and easy to apply insulation covering resistant to scratch & mechanical impact

- Cost effective covering system
- Good mechanical impact & scratch resistant

Designed for HVAC piping and ducts, this black treated woven glass cloth for Armaflex substrate offers good mechanical resistance, while still remaining flexible. It will not stain or mark. Arma-Chek GC is lightweight with permanent curl characteristics which make it quick and easy to install, without using heavy equipment.

- Lightweight and easy to apply solution for all areas where protection against mechanical impact is needed
- No risk of galvanic corrosion
- Low maintenance system
- Significant reduction of installation cost
- Resistant to oil and chemicals
- Easy to install - no special tools required
- Non metal cladding system
