

Class O+ Armaflex®

Higher Performance & Mold Resistance

Abad Insulation Pvt. Ltd.

Class O+ Armaflex®

Higher Performance & Mold Resistance

- Extremely Low Thermal Conductivity for Higher Energy Savings
- Superior built in vapour barrier for increased long efficiency
- Made with Microban, Antimicrobial Product Protection

How does Microban product protection work?

Microban antimicrobial product protection technology, gives an enhanced level of protection against harmful microbes such as bacteria, mold, mildew and fungi.

Microban antimicrobial additive is built-in the product during the manufacturing process.

When microbes come in contact with the product surface, Microban antimicrobial product protection, penetrates the cell wall of the micro-organism, disabling its ability to function, grow and reproduce.

How does Class O+ Armaflex keep your environment clean and healthy?

Promotes Indoor Air Quality

- Microban antimicrobial additive provides added protection against microbes
- Prevents condensation and minimizes moisture permeation, that can lead to mold growth
- Dust free, non-eroding, non-particulating and Fibre-Free
- Smooth surface which is easy to clean
- No Outgassing. CFC&HCFC free
- Formaldehyde free

Continuously fights the growth of microbes, that could cause bad odor, stains on surfaces, illnesses and other harm to human.
