

# AIPL-8030

## General Product Information

Stone wool products are non-combustible with a melting point of approximately 1000°C. They are particularly suitable for thermal insulation, fire protection and sound reduction/absorption.

AIPL-8030 provides an excellent structural core for factory engineered flat and profiled sandwich panels. It is suitable for outdoor and indoor applications such as facades, walls, roofs, partitions, ceilings and heavy loaded sandwich panels for e.g. extra wide spans or supplication of greater height.

## Common applications

AIPL-8030 provides an excellent structural core for factory engineered flat and profiled sandwich panels. It is suitable for outdoor and indoor applications such as facades, walls, roofs, partitions, ceilings and heavy loaded sandwich panels for e.g. extra wide spans or supplication of greater height.

AIPL-8030 core is non-combustible and it is rated A1 in accordance with European Fire Class EN13501-1.

## Dimensions

AIPL-8030 Slab : S10  
Nominal Density : 80(kg/m3)  
Size : 1200mm x 600mm  
Thickness : 30mm, 50mm
